

Medica is supporting the Transparency in Coverage Rule by making machine-readable files (MRF) available for Medica customers by July 1, 2022.

- The MRFs will be posted in JSON format, which is a machine readable language, updated monthly, and available on our unauthenticated site at [Medica.com/price-transparency](https://www.medicare.com/price-transparency)
- Under the rule, self-funded customers are required to make the MRFs publicly accessible on their own website
- The MRFs themselves will not be available until July 1
