

2020-2022 CHIP EXECUTIVE SUMMARY

ISANTI COUNTY PUBLIC HEALTH

The Community Health Improvement Plan (CHIP) is a flexible, living document for the broad community. It involves everyone in Isanti County, and not just public health or Cambridge Medical Center. From fall 2018 until early 2019, around 40 partners reviewed data, discussed, and determined top health priorities for Isanti County for 2020-2022.

Lack of Social Connectedness

Goal: Support the community in promoting and enhancing meaningful social relationships and work to increase social connectedness across all stages and ages of life

Youth Substance Use (tobacco and alcohol)

Goal: Reduce substance use/abuse to protect the health, safety, and quality of life for the youth in Isanti County

Mental Health (adult mental well-being and youth suicide)

Goal: Improve mental health and well-being, and reduce suicide in the community through increased awareness and access to care, programs, and services

Strategies

- Work with partners to create new marketing/promotion strategies for existing resources
- Work with partners to increase accessibility to existing resources
- Support and implement new strategies and programs to address gaps

Vision: We commit to having a vibrant, engaged, and compassionate community in which all individuals achieve their ideal physical, mental, spiritual, social, and economic well-being.

The success of this depends on everyone in the community. If you want to join in improving the health of Isanti County, contact Cassie Shaker, cassandra.shaker@co.isanti.mn.us, or 763-689-8276.
